

REMARKS

Claims 1-22 are pending in this application. By this response to the non-final Office Action dated June 6, 2008, claim 12 is amended. Support for the amendments is found in the specification and claims as originally filed. No new matter has been introduced. Favorable reconsideration of the application in light of the foregoing amendments and following comments is respectfully solicited.

Rejection Under 35 U.S.C. § 112, ¶ 2

On page 2 of the Office Action, claim 12 was rejected under 35 U.S.C. § 112, ¶ 2, for failure to provide antecedent basis for the limitation “at least some of the instructions.” Applicants have amended claim 12 to ensure that proper antecedent basis is provided for the limitation “at least some of the instructions.” Accordingly, claim 12 is now believed to satisfy the requirements under § 112, and Applicants respectfully request withdrawal of the rejection.

Double Patenting

On page 2 of the Office Action, claims 1-22 were provisionally rejected on the grounds of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-22 of copending U.S. Patent Application No. 10/757,851. Applicants have submitted herewith a terminal disclaimer, which overcomes the provisional non-statutory obviousness-type double patenting rejection. Thus, Applicants respectfully request withdrawal of the provisional rejections of claims 1-22.

Conclusion

In view of the foregoing, Applicants respectfully submit that the instant application is in condition for allowance, and respectfully request the Examiner's favorable reconsideration as to allowance, and withdrawal of any rejections of the pending claims. If the Examiner believes a telephone conference would expedite prosecution of this application, please contact the Applicant's representative listed below.
